Women's Cyber Safety Awareness Talk

"Be Smart. Be Safe. Be Secure Online."

ORGANISED BY

**WOMEN DEVELOPMENT CELL, SARVAJANIK
UNIVERSITY**

**In collaboration with ICC | Associated identity: Cyber
Warriors Meetup (CWM)**

HELD ON

19th August 2026

Co-ordinated by:

Dr. Kaushika Pal & Dr. Vivaksha Jariwala

Student Co-ordinator:

Bhamini Raval & Vasundhara Uchhala

Event Overview

The Women's Cyber Safety Awareness Talk was conducted on 19 August 2026 at the NJ Seminar Hall, Sarvajanik University, Surat, with the Women Development Cell organising the programme in collaboration with the ICC and with the Cyber Warriors Meetup (CWM) identity featured as part of the event communication. The session was designed exclusively for the female students of Sarvajanik University to strengthen awareness of cyber threats, online privacy, digital safety and responsible online practices.

Event Details

Organised by	Women Development Cell, Sarvajanik University
In collaboration with	ICC (Internal Complaints Committee)
Associated identity	Cyber Warriors Meetup (CWM)
Date	19th August 2026
Time	2:00 PM onwards
Venue	NJ Seminar Hall, Sarvajanik University, Surat
Target audience	Female students of Sarvajanik University

Objectives of the Programme

- Create practical awareness about common cyber threats faced by students and young internet users.
- Promote safer practices for passwords, account security, privacy settings and device usage.
- Help participants recognise phishing, social engineering, suspicious links, scams and other online risks.
- Encourage responsible digital behaviour and informed decision-making on social media and online platforms.
- Provide an open forum where participants could raise questions and clarify everyday cyber-safety concerns.

Event Timeline & Proceedings

Stage	Proceedings
Pre-event readiness	The seminar hall, registration area and presentation arrangements were prepared in advance. The event communication and registration process supported an orderly arrival of participants.
2:00 PM – Opening & welcome	The programme commenced as scheduled. Participants were welcomed and the purpose of the awareness session was introduced.
Opening context	The organising team highlighted why cyber safety is important in everyday student life, including social media use, online transactions, communication and academic activities.
Awareness session	The session progressed through key areas of cyber safety, including recognising online threats, protecting personal information, strengthening account security, maintaining privacy and responding responsibly to suspicious online activity.
Interactive engagement	Participants were encouraged to engage with the session through questions and practical situations. The discussion helped connect cyber-safety concepts with common digital experiences.
Practical safety guidance	The programme reinforced actionable habits such as verifying links and requests, using strong and unique passwords, enabling additional account protection, limiting unnecessary sharing of personal information and reporting suspicious or harmful activity.
Closing & acknowledgement	The programme concluded in an organised manner with closing remarks and appreciation for the participants, organising team and collaborating bodies. The event closed with the central message to remain aware, secure and empowered online.

Key Areas Covered

- Cyber threats and common online scams
- Phishing, suspicious links and social-engineering attempts
- Protection of personal and sensitive information
- Password hygiene and stronger account security
- Privacy-conscious social media usage
- Safe browsing, downloads and online communication
- Responsible digital conduct and awareness of online harassment
- Steps to take when suspicious or harmful online activity is encountered

Event Management & Execution

From an event-management perspective, the programme followed a smooth and structured flow from participant arrival and opening formalities through the awareness session, interaction and closing. The sequence of activities remained focused on the stated objectives, while the seminar-hall setting provided an appropriate environment for an awareness-oriented academic programme. Registration and participant coordination were handled in an orderly manner, and the programme maintained a professional and informative atmosphere throughout.

Participant Engagement & Outcomes

- Improved awareness of everyday cyber risks and the importance of digital vigilance.
- Greater understanding of practical steps for protecting online accounts and personal information.
- Encouragement to adopt safer and more responsible online habits.
- Opportunity for participants to clarify concerns through interaction and discussion.
- Reinforcement of the message that digital safety is an ongoing personal responsibility.

Overall Assessment

The Women's Cyber Safety Awareness Talk was successfully conducted in a smooth, disciplined and purposeful manner. The programme remained aligned with its objective of empowering female students with practical knowledge for safer participation in the digital environment. The collaboration between the Women Development Cell, ICC and the associated cyber-safety initiative added institutional and thematic strength to the programme.

Conclusion

The event successfully delivered its central message: cyber safety begins with awareness and responsible digital choices. By combining awareness, practical guidance and participant interaction, the programme provided a useful platform for students to understand online risks and adopt safer digital practices. The event concluded on a positive note, with participants encouraged to stay aware, secure and empowered online.

Acknowledgement

Sincere appreciation is extended to Sarvajani University, the Women Development Cell, ICC, Cyber Warriors Meetup (CWM), the student coordination team, faculty/support staff and all participating students for their contribution towards the smooth execution of the programme.
